

A **conceptual ontology** in the water domain to bridge the **lexical semantics** of **stratified discursive strata**

1. An overall **model** of the project device
2. **Ontology, lexicon** and **corpus** : three sub-domains of **water related knowledge**
3. **Bridging** discursive strata in the **articulation** of ***pivot*** and ***satellite*** lexical units
4. The example of “**Water withdrawal**” as discursive, lexical and conceptual unit

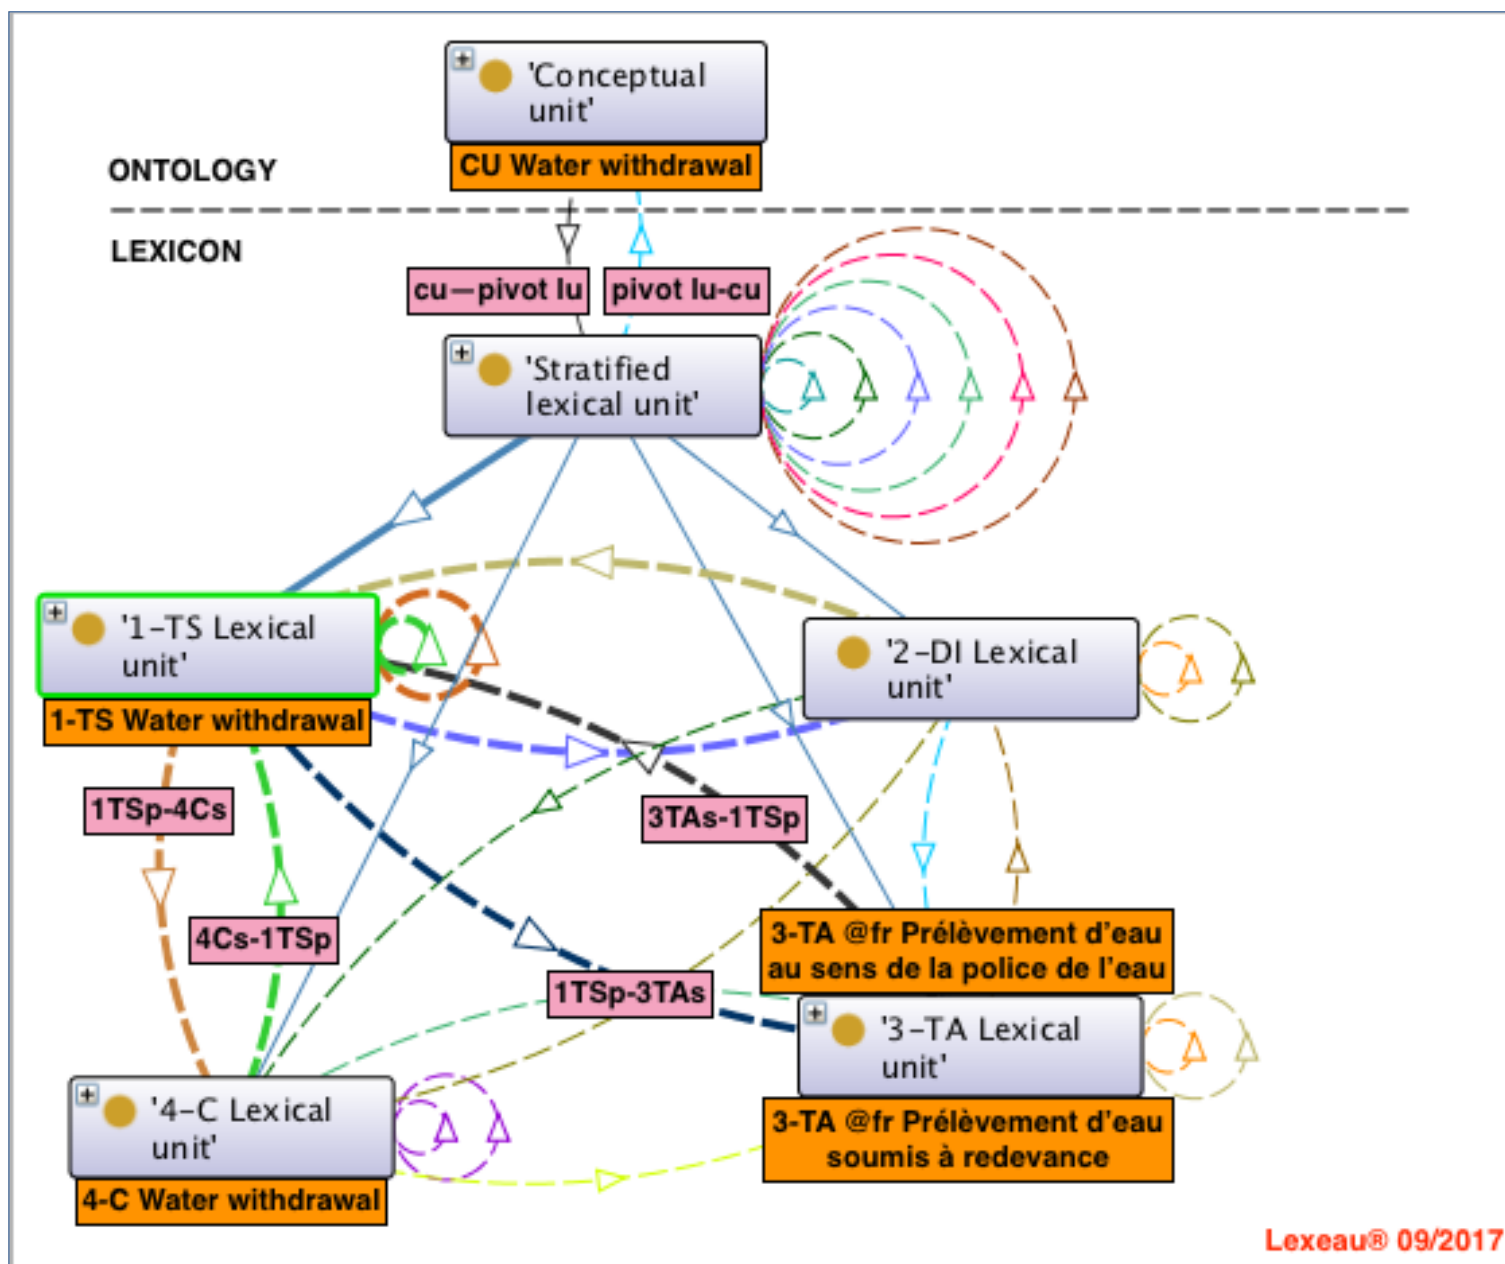

1. An overall **model** of the project device

2. Ontology, lexicon and corpus : three sub-domains of water related knowledge

3. Bridging discursive strata in the articulation of *pivot* and *satellite* lexical units

4. The example of “**Water withdrawal**” as discursive, lexical and conceptual unit
